RIDER NOVAS GUZMAN

Data Analytics | Business Intelligence | Cloud Computing | Information Systems
(570) 871-2550 | riderismal11@gmail.com | Fayetteville, NC | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Business Analytics and Information Systems student (GPA 3.6) with 2 end-to-end data analytics projects covering 20 years of financial data and 2,500 days of stock market data. Experienced building relational databases, interactive multi-page dashboards, and Python-based analytical pipelines that deliver measurable business insights. Cloud Computing concentration with Cybersecurity minor. Targeting entry-level roles in Data Analytics, Business Intelligence, or Financial Analysis.

TECHNICAL SKILLS

Analytics	SQL (PostgreSQL, window functions, CTEs, JOINs), Python (Pandas, Matplotlib, Seaborn), Excel (financial modeling, pivot tables)
Visualization	Power BI (DAX, multi-page dashboards, dynamic filtering), Tableau (interactive dashboards), Matplotlib, Seaborn
Cloud & Dev	Microsoft Azure, Supabase, GitHub, JupyterLab, VS Code, Microsoft 365 (Teams, SharePoint)

PROJECTS

ETF vs. Traditional Banking Investment Analysis (2006-2026) | *SQL PostgreSQL Power BI DAX Tableau Excel*
github.com/riderismal11/ETF-vs-Bank-Investment-Analysis

- Engineered a PostgreSQL database with 4 normalized tables storing 20 years of financial data and automated compound growth calculations using SQL window functions (LAG, RANK, CTEs, multi-table JOINs)
- Built a 3-page Power BI dark mode dashboard with DAX measures and dynamic filtering, plus a Tableau dashboard, and delivered investment recommendations for 3 investor profiles based on volatility and max drawdown analysis

Stock Market Analysis (2015-2025) | *Python Pandas Matplotlib Seaborn yfinance*
github.com/riderismal11/Stock-Market-Analysis

- Analyzed 2,516 days of market data for 5 securities (SPY, QQQ, AAPL, GOOGL, NVDA) calculating Sharpe Ratio, Max Drawdown, and Pearson correlation, revealing NVDA grew $10K to $2.7M (+27,695%) while SPY reached $33,957 (+240%)
- Built 6 professional dark-mode visualizations including compound growth curves, risk/return scatter plot, correlation heatmap, and 50/200-day moving averages identifying SPY as the optimal risk-adjusted investment

WORK EXPERIENCE

IT Services Student Assistant Leader | Fayetteville State University *Fayetteville, NC | Oct 2025 - Present*

- Resolve hardware, software, and network incidents for 500+ students, faculty, and staff using Microsoft 365 and remote diagnostic tools, applying Excel-based tracking to identify recurring issues and improve team response efficiency
- Lead configuration and maintenance of campus systems using Azure and Microsoft 365, ensuring near-zero unplanned downtime while mentoring and coordinating team members in a fast-paced technical support environment

Production Assistant | Zona Franca San Isidro *Santo Domingo, DR | May 2023 - Aug 2023*

- Maintained inventory records in Excel using standardized tracking templates, reducing stock discrepancy errors and collaborating via Microsoft Teams and production dashboards to align daily tasks with operational targets

EDUCATION

B.S. Information Systems & Business Analytics
Fayetteville State University | Expected May 2027
Cloud Computing Concentration | Cybersecurity Minor | GPA: 3.6

A.S. Business Administration
Western Oklahoma State College | May 2025

CERTIFICATIONS

Google Data Analytics
Google | Dec 2025
ID: R1FU8ZZ0XNNS

Python Mastery: Novice to Ninja
Udemy | Jul 2025
ID: UC-cf2910f8

Office Pro Certification
TestOut | May 2025
ID: 6-3C6-5WHT8
